

**ANNEXURE-IIB****TEST REPORT OF APPARATUS OF VOLTAGE EXCEEDING 650 VOLTS  
INSTALLATION**

Note. This proforma should be filled in separately for all equipments, e.g. Transformers, Breakers, CT, PT, L.A, Isolators , Drop out fuse ,GOAB etc.

1. Identification of Sub-Station :
  - 1.1 Name :
  - 1.2 Location :
2. Equipment to be energized :
3. Equipment details :
  - 3.1 Name :
  - 3.2 Rating : Make\_\_\_\_\_ Sl. No.\_\_\_\_\_
 

Breaking Capacity:
  - 3.3 Voltage at No. load : HV \_\_\_\_\_ LV \_\_\_\_\_
  - 3.4 Current rating : HV \_\_\_\_\_ LV \_\_\_\_\_
  - 3.5 Percentage impedance :
  - 3.6 Oil capacity :
  - 3.7 Manufacturer's test report on equipment to be enclosed :
  - 3.8 Insulation resistance :
    - 3.8.1 Between phase to earth (HV/incoming) :
    - 3.8.2 Between phase to earth (LT/Outgoing) :
    - 3.8.3 Between HV/LV (As may be applicable)

**Instrument used in Testing**

- (a) Voltage rating :
- (b) Make :
- (c) Serial No. :

Date:

Place:

Tested by (Signature) :  
 Name :  
 Designation :  
 Authority/Competency :
